BIOGRAPHY

Marquis Maurice Taylor (born January 29, 1990) known professionally as DMT The Rapper, is an American rapper and songwriter. He is better known by his stage name Double MT when he started rapping at 12 years old. His name came from his initials followed by his birth name (Marquis Maurice Taylor) the name DMT The Rapper came out around 2008 as an evolved stage of his career indicating the mature older version of Double MT. Although, DMT is a sort of drug that's starting to get popular in this generation. DMT does have acronyms of its own. A mentor of DMT once said "Hey you know what DMT is when I look at you? Devastating, Microphone Trendsetter." He then stated "When the hip hop game sees you they need to get devastated because you bring nothing but heat. Microphone is your DNA that's what you go by. You never follow trends you seem to set your own trends when people are around you.

AWARDS

DMT the Rapper was the Grand Prize Winner
of BET's [Next Big Music Star](#) in 2012
